BRITISH WAR DESTROYERS HUNTING SUB

Italy Suspected Of Assisting Franco With U-Boats

London, Sept. 3.—(AP)—Great Britain sped destroyers reinforcements today to find "pirate" submarines in the western Mediterranean and decided to present "important proposals" before Europe's statesmen at Geneva to safeguard shipping in the war-infected waters off Spain.

French warcraft also augmented the British patrol force against the mysterious submarines which have sunk or imperiled merchant shipping and even the course of British warships. A new torpedoing, this time the sinking of a Soviet freighter in the northern Aegean, widened the scene of chaos at sea.

With the reinforced British destroyers told to capture or sink "undesired pirates," British statesmen made their plans for a conference of the Mediterranean powers at Geneva on Sept. 10 to end bitter and mutual distrust arising from the submarine attacks.

They expected Italy, which has shunned Geneva since the League of Nations Ethiopian sanctions, would enter into the discussions, so will France, Yugoslavia, Turkey, Greece and possibly others.

Italy has disclaimed any knowledge of the attacking submarines, in the face of apparently well-informed comment here which hinted it might be officially suspected of this helping his friend, insurgent General Franco.

In Franco's civil war blockade against the Spanish government's ports, today four British destroyers of His Majesty's home fleet furrowed a swift path toward the western Mediterranean today to help track down guerrilla submarines that have seized international shipping with torpedo attacks.

The admiralty announced the Fury and Forester, sailing from Portsmouth and the Fortunate and Firebrand from Chatham, would join five other destroyers in a heavy concentration off Spain's east coast.

To Blanket Wide Area These trim aircraft will blanket a wide area of the Mediterranean about the spots where only two days ago the British destroyer Havock and the British tanker Woodford were torpedo targets. The Havock escaped, the Woodford was sunk.

This direct naval action was but one point of Britain's double-barreled policy to curb the mysterious maritime outrages. The other avenue was through negotiation toward unified action by affected powers.

Georgia Boaters Win in Court; Get Draw in Town's Only Movie

Tifton, Ga., Sept. 3.—(AP)—Embattled Tifton boaters were hoarse but happy today after beating an anti-boating suit in court and whooping through to a draw against the movie loudspeakers in the local theatre last night.

Herman Hill, druggist, who is spokesman for Local No. 3 of the Society for the Boating of Commercial Advertisements in Motion Picture Theatres, promised a slightly sound-shocked public more and better boating and henceforth until the offending ads are curtailed or banished.

The battle of the loudspeaker burst unexpectedly last night while the boaters were celebrating with the theatre of a damage suit and lifting of a temporary

Sure Enough

Evansville, Ill., Sept. 3.—(AP)—When a fire engine raced up to a parked automobile, one of the firemen opened the car door and shook the occupant in the front seat.

"Wake up," he said, "and get out of here."

"Huh?"

"Get out. The seats on fire."

So Willie Partee, 26, the occupant looked down, and sure enough—a blaze was burning brightly near the seat of his pants.

SEX SLAYER OF BOY, 5, PLEADS "NOT GUILTY"

Boston, Sept. 3.—(AP)—Joseph Pimental, 24, described by Police Commissioner Joseph E. Tully as a sex-crazed killer, pleaded innocent in Brighton district court today to a charge of murder, in the first degree, in connection with the slaying of five-year-old Chester Harris of Cambridge.

Pimental, employee of a Boston beverage bottling plant, was held without bail for a hearing September 16. The disheveled prisoner, unmoved during his arraignment, was taken to jail to await trial.

Capt. James M. Dailey said Pimental signed a 15-page confession, covering details of the slaying, and admitted molesting two young Cambridge girls.

Sergeant John D. Holmes said Pimental told police the boy smothered in a weedy field behind a billboard here, where he had attempted an attack.

The slain boy's father, Slim Arnold Harris, who spent days and nights tramping Cambridge fields in search of his son after he disappeared October 30, said, "all I ask is the privilege of seeing the killer electrocuted with my own eyes. x x x I don't feel that's much to ask."

The boy's body was found last January, hardly more than a skeleton half covered with burlap.

FRANCO ASKED NOT TO EXECUTE CHAMPAIGN BOY

Mother Assured U. S. Will Use Efforts To Prevent It

Washington, Sept. 3.—(AP)—Secretary Hull telegraphed today to Mrs. Ida Dahl, Champaign, Ill., that the state department was using its "best efforts" to induce Spanish insurgents not to execute her son, Harold E. Dahl, captured loyalist aviator.

At the same time state department officials said they had to confirmation of reports Dahl had been sentenced to death.

In response to her plea that the United States do all possible in behalf of her son, Secretary Hull wired Mrs. Dahl:

"While we fully realize your feeling of anxiety, it is not possible for us to do more than use our best efforts to induce General Franco to prevent the execution of your son. We have sent several telegrams to this end to our consular officers in Spain."

ANXIETY GROWS

Champaign, Ill., Sept. 3.—(AP)—A mother's apprehension over the safety of her son grew today while official and civic bodies joined in new appeals to the United States government to save Harold E. Dahl, 28-year-old Champaign aviator, from execution by Spanish insurgents.

Following the Champaign city council's urgent appeal to Secretary of State Cordell Hull, telegraphed last night, the Chamber of Commerce was summoned into special session today to take similar action.

The city council in its special meeting called upon Hull to "assist in every possible manner" to prevent Spain's rebel forces from carrying out the reported death sentence for Dahl, who was captured as a loyalist combatant near Madrid July 12.

Mrs. Ida Dahl, 48-year-old mother of the adventurous flyer, meanwhile said she had received no answer to the telegram she sent to Hull yesterday.

Haunted Air Field

"If I could only be sure he is all right," she said.

Many residents here remember Dahl as a high school boy who haunted the army flying field at nearby Rantoul. After attending Butler and James Millikin universities, he enlisted in the army air corps, winning a lieutenantcy at Mitchell field, New York. He resigned from the army in February, 1936.

The city council's telegram to Hull read:

Yesterday, Dahl's mother dispatched a telegram asking Hull to do "anything you can to secure his release." She said "Quick action seems imperative."

Dahl's wife, the former Edith Rogers, who once was a singer with Rudy Vallee's orchestra, was reported to be in Cannes, France.

CCC Boys Seeking Missing Cadet In Texas' Big Thicket

Grapeland, Tex., Sept. 3.—(AP)—C. C. boys flailed through the tangled underbrush of Texas' "big thicket" today, searching for Guy Edgerton, Kelly field flying cadet, missing since Monday.

Hope of finding the flyer alive had all but vanished. He has not been heard from since his flight formation scattered in the face of a storm. The other 12 planes landed safely.

MAN, 45, ADMITS KILLING WIFE, SUITOR, NEGRO

Jackson, Miss., Sept. 13.—(AP)—Sheriff E. T. Harvey said today Gordon Newman, 45, charged with killing his wife and her dentist, confessed that he also killed a Negro yesterday.

Newman, officers said, beat his 38-year-old wife to death at their Gillsburg, Miss., farm home and then drove 16 miles to Kentwood, La., where he shot Dr. A. D. Root, 45, in his office.

"They had an affair," Newman was quoted as saying.

The sheriff said the prisoner did not tell him why the Negro was killed nor his name. Amite county officers organized a searching party to hunt for the body.

They advanced the theory that the Negro possibly witnessed the killing of Mrs. Newman.

"I've been through hell in the past two weeks," Newman told Sheriff Harvey. "They had an affair. I found out about it only a short time ago. I might not even then have taken life, but I couldn't bear the taunting to which my wife subjected me yesterday before I lost my head completely and clubbed her to death."

Deputy Sheriff J. K. Harvey, father of the Amite county sheriff, said Mrs. Newman's relatives were incensed at the prisoner's charges against his wife.

Police Captain Wojciechowski said Duda told him he recognized the voices of Alexander and his "pal" outside the window but I didn't intend to hit them. I just wanted to scare them away."

Bluejackets Killed

Many Japanese bluejackets or shore and on ship board were killed or wounded.

Two big shells plunked into Bubbling Well road, one of them at the entrance of the world-famous Shanghai Race club in the heart of the city. It wounded a British volunteer and two Chinese. Another shell fell next to the Italian consulate.

The United States supply ship Gold Star ran a gauntlet of shell fire to evacuate about 100 wives and children of American marines. The ship sailed for Kobe, Japan. It was the first American refugee ship to leave since bombardment of the Dollar Line President Hoover Monday. American naval and consular authorities announced the port of Shanghai was open once again to American ships.

The Japanese government prepared for a long war by drafting an emergency war budget of more than \$600,000,000, more than Japan spent on the last Sino-Japanese war and the Russo-Japanese war combined. It raised the total of \$762,600,000.

CHINESE AIM BETTER GUNS STRAFE JAPS

Shanghai New Hell Of Bombs, Fires And Ruin

BULLETIN

Shanghai, Sept. 4.—(AP)—(Saturday)—The Imperial Japanese third fleet, stung by the might of Chinese counter-attacks, today proclaimed stern punitive action to "terminate Chinese activities in Shanghai."

Shanghai, Sept. 4.—(Saturday)—(AP)—A new maelstrom of shellfire and shrapnel engulfed international Shanghai early today, leading French authorities to give blunt notice that they expected both sides to curb hostilities during evacuation of 650 French and American refugees.

While Japanese planes droned over the city dropping bombs on Chinese Pootung across the Whangpoo, French consular and military officials prepared to safeguard the refugees down the river to the French liner Sphinx.

The Sphinx is scheduled to sail at 8 A. M. Many Americans have booked passage.

The Japanese bombardment in the early morning darkness was Nippon's angry answer to a Chinese counter offensive which stalled Japan's long promised "big push."

Chinese guns roared along the Whangpoo, taking Japanese warships and turning Shanghai's waterfront into a shell-shattered battlefield.

River Impassable The river seemed almost impassable for a tender, but French authorities told both Chinese and Japanese high commands that they expected hostilities to be "withheld" during the voyage.

Yesterday the United States supply ship Gold Star ran the Whangpoo gauntlet to evacuate about 100 wives and children of American marines.

Last night's Chinese counter-attack forced a revision of Japanese strategy.

Chinese big guns and machine-guns sprayed shells and bullets on Japanese warships and troop transports. Eight Japanese transports fled downstream.

Shells crashed into the international settlement and the French concession.

One projectile struck the roof of the second United States marine battalion barracks, but failed to explode.

A heavy artillery shell burst at the junction of Peking road and Shanghai's bund in the international settlement. Shrapnel burst about the U. S. cruiser Augusta.

Even greater danger loomed for the Augusta and other foreign warships. A Japanese naval spokesman announced Japanese ships would fire across the foreign naval contingent lying in the Whangpoo in punitive bombardment of Chinese artillery positions.

Chinese gunners showed surprising improvement in marksmanship. They scored three direct hits on the Japanese consulate, seriously wounding three Japanese consular police and one Japanese newspaperman.

Brain Twizzlers

PROF. J. D. FLINT

Six authors travel in a first class railway compartment. Their names are: Black, Brown, Grey, Green, Pink and White. They are (but not respectively): essayist, historian, humorist, novelist, playwright, and poet. Each wrote a book which one of the fellow-travellers is now reading.

Dr. Black reads essays. Mr. Grey reads the book of his opposite neighbor. Mr. Brown sits between the essayist and the humorist. Mr. Pink is the neighbor of the playwright. The essayist faces the historian. Mr. Green reads a play. Mr. Brown is the brother-in-law of the novelist. Mr. Black sits in a corner and is not interested in history. Mr. Green faces the novelist. Mr. Pink reads the books of the humorist. Mr. White never reads poetry. Identify each of the authors.

preted the law so narrowly that the maritime commission had found it impossible adequately to protect the property and interest of the government.

Flip-Flop

When Governor Hurley of Massachusetts let out his blast against the federal writers' treatment of the famous Sacco-Vanzetti case, he executed a lightning fast somersault.

On August 17, Hurley made a public statement praising the Massachusetts Guide, product of the writers on relief, and declared he would recommend the book to every school and library in the state. The very next day he issued a hot fusillade against it.

Reason for the flip-flop was that between the two statements Hurley's attention had been called to a sentence on page 76 which made him see red. That sentence, speaking of the Sacco-Vanzetti trial, said:

"It was widely believed that, although legal forms were observed, the determining factor in the case from start to finish was the affiliation of the two 'men with an unpopular minority political group'."

The Bay state governor lay about him with vigor in his outburst. "If these writers don't like the state of Massachusetts," he thundered, "let them go back where they come from."

This was aimed at the assistant director of the project in Massachusetts, Burt James Loewenberg. Loewenberg recently accepted a post at the University of South Dakota, and Hurley assumed he was a "foreigner" in Massachusetts. Actually, he was born and reared in the state.

Hurley's angry attack on the volume gave it a lot of free advertising. The first edition of 10,000 copies has been completely sold and another edition is being rushed. There is no indication that WPA officials will delete the passage denounced by Hurley.

Washington, Sept. 3.—(AP)—The South has stolen a march on the corn belt in hog production, agricultural department reports disclosed today.

Officials said the South had increased or continued normal swine production in the past several years when the drought-hit Middle Western states and most of the country have reduced their output.

Their records showed, for example, a decline of about 763,000 head in national hog numbers in 1936—from 42,837,000 to 42,774,000—and an increase in the South of around 1,000,000 head—from 11,907,000 to 12,973,000.

PICKLES

During the height of the watermelon season and with quantities of grapes and apples forecast, homemakers will want to lose no time in putting up pickles and relishes for this winter, suggests Miss Grace Armstrong, extension specialist in foods, College of Agriculture, University of Illinois.

The record breaking crop of grapes spells such recipes as spiced grapes. A portion of the home apple crop will go into apple chutney and spiced crabapples. Pears, both Kieffer and Seckel, will be used along with peaches, for company pickles.

Watermelon Pickles

There are two tricks to making watermelon pickles; the first is to cut away every bit of the red part of the melon since it will only get dark and soft and spoil the appearance of the finished product; the second is to cut the melon rind into uniform attractive shapes instead of large hunks.

Soak 2 pounds of watermelon rind overnight in salt water (1 cup salt to 1 quart water). Drain off the brine. Cook the watermelon rind in clear water until it is tender. Add the rind to the hot pickling solution made of the following ingredients and boil rapidly until it becomes clear.

Pickling solution is made with 2 pounds sugar, 1 pint vinegar, 1 pint water, 1 teaspoon cinnamon, 1 teaspoon cloves, one teaspoon allspice and 1 thinly sliced lemon.

Spiced Grapes

Use 7 pounds grapes, 4 pounds sugar, 3 tablespoons cinnamon, 3 tablespoons cloves, and 1 pint vinegar.

Wash and remove seeds. Put in a preserving kettle with sugar, vinegar, and spices tied in a piece of muslin, heat to the boiling point, and cook slowly for 2 hours. Put in a stone jar.

Pickled Peaches

Use 4 pounds peaches — small, either yellow freestone or clingstone, 3 cups sugar, 1 cup vinegar, 1 cup water, 4 sticks cinnamon, broken in small pieces, and 4 to 5 cloves for each peach.

A wise idea is to put the spices and cloves in a little sack and boil them in the syrup solution, instead of sticking them into each peach. This avoids the dark spots and sharp tang around the spot where the clove has been.

Boil vinegar, sugar and cinnamon for 15-20 minutes or until syrup begins to thicken. Peel the peaches. Drop a few peaches at a time into the syrup and cook until tender. Pack into sterilized jar and continue until the jar is full. Add syrup, one stick of cinnamon (broken), seal, and store.

Recipes for pickling pears, and crabapples as well as for relishes and cucumber pickles may be found in "Suggested Methods for Pickling," sent by the extension service, College of Agriculture, University of Illinois.

Boy Train Wreckers Put on Probation

Carlyle, Ill., Sept. 3—(AP)—John Schaefer, 8, and his 11 year old brother, Robert, said by Deputy Sheriff Fred P. Haderlein to have confessed wrecking a passenger train near here August 8, were ordered by County Judge Bernard Deters to report to the county probation officer monthly for a year.

In a brief court appearance, the boys were lectured by Judge Deters, who ordered the boys to keep away from the Baltimore & Ohio railroad tracks, about a quarter of a mile from their farm home.

Haderlein said the boys admitted they placed a steel plate on the track, but had no intention of wrecking the train. The locomotive and tender plunged down an embankment and about ten coaches left the rails, but no one was seriously injured.

FULL PROGRAM AT GOSPEL TENT OVER WEEK-END

Evangelist Tracing Scriptural Prophecy Fulfillment

The evangelistic services being conducted nightly at 7:45 P. M. in the Gospel tent at West First and College streets, Dixon, will continue with an exceptionally full program slated for this week-end.

Miss Dorothy L. Kunzman, well known young woman evangelist of Los Angeles, California, will be heard at each service. Although only a young woman Miss Kunzman has had a wide preaching experience in many of the larger churches and auditoriums and upon the more prominent tabernacle platforms of this country and elsewhere. Some twelve years of active evangelistic ministry have qualified her as almost a veteran.

Last night's service in the tent was exceptionally well attended. During the course of her sermon upon the subject of "The Supreme Conflict of the Ages" Miss Kunzman stated: "We of today live in a definitely 'war-conscious' world and despite all our efforts to preserve peace, the monster of war rears its ugly head. The prophecies of the Scriptures are being fulfilled to the letter; we are hearing of the 'wars and rumors of wars' which Christ foretold."

Miss Kunzman further declared that the greatest conflict of all time could not by any stretch of imagination be conceded to be the last World's War nor the battle of Waterloo, Gettysburg or that of 1776. Even the Civil War and the many great conflicts of ancient days, as well as the Old Testament combats between Israel and Philistia fail to measure up to the title, "The Supreme Conflict of the Ages." Nor does the constant struggle between right and wrong completely qualify for the distinction for the eternal battle of faith against reason against faith which has been waged from time immemorial is the greatest battle of all."

The young evangelist continued in part, "Good is not a mental concept but a spiritual reality, and although the plan of redemption is entirely reasonable, the way into salvation is not 'head-first' but 'heart-first' for 'it is with the heart man believeth unto righteousness'."

A high point of the Sunday services held in connection with the Gospel Tent Revival will be the public meeting at 2:30 P. M. to be conducted on the site of the new Dixon Evangelistic Tabernacle, now in process of erection at South Ottawa and Fifth streets. The lay-out of the corner-stone will take place at this time and the Rev. William Slipp announces that a large attendance is anticipated. Miss Kunzman will speak briefly at this service and will be heard again at the 7:45 service in the Gospel tent on West First street. The public is cordially invited to be present.

Grider Forfeits Cash Bond, Didn't Appear In Court

Chicago, Sept. 3—(AP)—Dwight Hafeli, 24, hailback from Washington University, St. Louis, and a member of the All-Star football squad, forfeited a \$10 cash bond when he failed to appear in Evanston municipal court on a charge of passing a stop signal.

Hafeli was arrested Aug. 26. He was accompanied by four other stars, bound for a movie after night practice. Hafeli did not play in the game with the Green Bay Packers.

Nancy Johnson, wife of the young U. S. naval officer, is credited with the invention of the ice cream freezer.

TWO FLIGHTS IN COUNTRY CLUB GOLF TOURNEY

A revision has been made in the rules conducting play in the championship tournament at the Dixon Country Club. Because of the scarcity of entrants there will be two flights instead of the three flights as originally announced.

The championship flight will consist of those golfers who qualified with a score of 85 or under. The trophy for this flight is on display at The Dixon National Bank. The second flight will have as entrants those who shot 86 or over in their qualifying round. The prize for this flight has not been announced as yet.

The pairings for match play will be drawn and posted at the Country Club Saturday. Chairman George Banta announced today. The first matches will be only nine holes until semi-final play is reached.

Because of his excellent record in the qualifications Wilson Dysart looms as Ken Detweiler's toughest hurdle to jump before retaining his title this year. Dysart shot a 70. Next best showing was that of Dr. Lazier who toured the course in 75. He was closely followed by Don Raymond. Defending champ Detweiler garnered a 78 while another strong challenger, Em Rorer bagged a 79. Dick Durkes who had been given a good chance to take over the title is not entered as he is out of town. Other entrants in the first flight are: Dr. Stackhouse, Willard Jones, George Banta.

Entrants in the second round are: George Burch, George Beier, Harold Coss, Dan Branigan, Eddie Jones and Jack Fritzen.

In County Court

Hugh McKay, III, appeared before Judge Leon H. Zick in the county court this morning for a hearing on an application for probation which was denied and he was sentenced to serve a term of 90 days at the state work farm at Vandalia on charges of issuing checks to defraud. The court showed leniency because of the family of the defendant, stating that a minimum penalty of one year was applicable to the offense.

Arthur Hall, arraigned before the court on an information charging wife and child abandonment, was ordered to pay the sum of \$5 weekly for the support of his wife and child.

A motion for the release of John "Red" Haefer from the state work farm at Vandalia where he has served 23 months, was filed with Judge Zick this morning, and set for hearing next Tuesday. Haefer was sentenced about two years ago to serve one year at the state farm and stand committed until a fine of \$1,000 and costs had been worked out. The petition filed in the county court sets forth that Haefer is a pauper and unable to pay the fine. The charge on which he was sentenced was one of assault with a deadly weapon.

The will of the late Edward E. Dysart of this city, who died Aug. 26, was admitted to probate by Judge Zick today. The inventory lists real estate valued at \$20,000 and personal property of the value of \$1,000. A son, Kenneth S. Dysart is named executor of the estate, the widow and son named as beneficiaries.

TENNIS FATHERS SEEK TO REMOVE MAKO FROM TEAM

Feel He Was Weakest On U. S. Davis Cup Aggregation

Forest Hills, Sept. 3—(AP)—There is a strong campaign afoot already to get husky Gene Mako off the American Davis Cup doubles team and break in a new partner for Don Budge before Germany comes hunting for the cup next summer.

The tennis fathers have not been content with Mako's play for some time. They felt he was the weak link in the American team that went questing for the big trophy this summer. Gene lulled their suspicions for a time with brilliant exhibitions both in the inter-zone final against Germany and in the challenge round victory over England at Wimbledon, but the straight-set trouncing administered to him and Budge by the great German pair, Gottfried Von Cramm and Henner Henkel, in the nation-

als doubles championships Monday has the wolves in full cry again.

Wolves Howling

There was more talk about it yesterday during the opening round of the singles championships than there was about the day's matches. That is not so very surprising, considering the unalloyed dullness of a Forest Hills first day.

Mako's inferiority as a singles player probably will be exploited to the "ull in the second round today when he bumps squarely into Bobby Riggs, the sensational Los Angeles 19-year old.

Budge and Von Cramm, idle yesterday, meet inconsequential opposition. Bryant Grant plays Gilbert Hall in a promising match, Frankie Parker encounters Frank Bowen, New York veteran, and Sidney Wood meets Hideo Nishimura of Japan.

Helen Jacobs of Berkeley and Jadwiga Jedzejowska of Poland, two of the favored stars in the women's division, play their openers today against Helen Bernhard and New York and Evangeline MacLennan of Decatur, Ga., respectively. Champion Alice Marble and Anita Lizana of Chile, other half of the women's big four, won yesterday without undue exertion.

Dobbin was the name of Paul Revere's horse.

Killer of Friend's Child Is Sentenced To Life Of Labor

Detroit, Sept. 3—(AP)—Joseph Jacobs, confessed killer of the 10-year-old daughter of his "best friend," was sentenced yesterday to life at hard labor in the Northern Branch State prison at Marquette, Mich.

Circuit Judge Harry B. Keldan pronounced sentence after Jacobs, sobbing and near collapse, had pleaded guilty to first degree murder. The 45-year-old defendant admitted that he beat Evelyn Mack to death with an automobile crank Monday afternoon after she had accompanied him on a trip into the country.

In several statements after the slaying, Jacobs said "I don't know why I did it," and "I must have been crazy." His wife said he had irrational spells after death of a daughter who would have been the same age as the Mack girl.

PLUGS UP PROSPERITY

Construction activity as a whole advanced to high levels for the recovery period, as reported for July by the F. W. Dodge corporation, building statistical organization, but the July advance was due entirely to building of types other than residential. The report asserts that residential construction continued to decline by more than seasonal amounts, and is lagging considerably behind expectations expressed earlier in the year.

Building costs are notoriously too high for its market. As the American Builder, trade publication, pointed out some time ago, the industry is attempting to dictate to its market, and the market refuses to take dictation. It is allowing the building industry to wait.

If it were only the building industry that were penalized for this sluggishness, it would be only a case of the dancer paying the fiddler, but when the building industry sits down in the bottle-neck of the flow of industry, it affects the entire country. First of all comes transportation, which always takes a heavy toll off the building industry. Recovery of transportation has been slower in this period than in that following other depressions. It is an agency that itself has held back recovery, but in turn it is held back by its twin, the building industry.

Each is attempting to recover by giving less and less for a dollar, while the industries that have been forging ahead are those that have undertaken to give more and more for a dollar.

Building for rent is not profitable in Dixon.

FEDERAL COTTON POLICY

When the south is in the saddle in Washington, the word agriculture means cotton. The cotton policy has been fixed for the next year, as a result of a deal between southern statesmen and President Roosevelt.

The deal is that the government, through the Commodity Credit corporation, will loan 7 3/4 to 9 cents a pound on this year's cotton crop, and will pay cotton producers a subsidy not to exceed 3 cents a bushel, in the event that they comply with federal requirements planned for next year. Principal requirements of course will be reduction of acreage.

It doesn't make much difference whether the government pays the money through the process of a loan or a subsidy, except that by holding back a part, the government can force compliance with department orders supplied to next year's crop.

The sound way to have brought about parity of agriculture with industry, transportation, and labor would have been to have allowed natural processes, which were at work during the depression, to carry us down from the artificial plane created during the World War, so that goods and services would have flowed naturally and a normal condition of prosperity for all resulted.

Instead we staked everything on a bolstering of prices. We ignored the necessity of flow of trade and were willing trade should stagnate if a price were maintained.

Now we have the prices up to war peaks again, and they seem destined to go higher, inflated as they are with taxes and social security and pyramids of added costs accumulated through shorter hours of labor.

Undetermined yet, however, is how to bring the farmer up to a parity with industry, transportation, and labor, as it existed in 1909-13, an announced policy not only of the present administration but of all supporters of policies designed to aid agriculture.

As far as legislation and economic policies are concerned, everything has been done in opposition to such parity. Now the only means left by which the parity may be restored appears to us to be to write a check on the United States treasury. There seems to be no available proof that reduction of production will increase the farm income with any certainty, by which the farmer can buy at the higher prices brought about by Washington's artificial processes.

So, when we note that the cotton farmers are to receive loans of 7 3/4 to 9 cents and subsidies of 3 cents, we may look upon the procedure as something that is attaching itself to national policy as something permanent. The corn belt and the wheat belt and the cattle belt and the dairy belt will take their turns at claiming subsidies from the United States treasury to make effective the parity of 1909-13.

Then, after we all have contributed to the farm subsidy, we may look at our wages and prices and wonder if it would not have been better to have had less artificial and more natural movement of goods and services, while coming out at the same place.

PRACTICAL JOKE LIVES ON

About a quarter of a century ago, perhaps more, an Iowa editor widely known as Bailey of Britt began promotion of a hobo's convention to be held at Britt, a town of 1500 population.

Bailey was a humorist of quality and his convention propaganda was widely read. The hoboes came and the convention was held.

Now it appears to be held annually, and the 1937 convention has just adjourned. About a hundred hoboes and about five thousand other persons attended.

Harry C. Beetson, aged 53, of Ashland, Neb., was

crowned king, as a result of the hobo vote. He received one more vote than his nearest opponent, Hairbreadth Harry, who once held the post.

Scoopshovel Scottie, the reigning king, was unable to attend, because he was in jail in Cedar Rapids for throwing a brick through a window. However, Scottie was elated over the election returns. He desired his mantle to fall upon the Ashland candidate, as he felt that Hairbreadth Harry had undertaken to undermine him.

King David, as the new ruler is known, has been arrested twelve times, always only as a suspicious character, and never has been convicted because he "never did anything wrong." He is a bearded king, having quit shaving in 1931 when his sweetheart went back on him. He has been twice married and twice divorced. He never has been inside a pool hall, does not smoke or drink, thus setting a good example to boys who may hope to grow up to be king of the hoboes. Virtue has its rewards.

At the hobo jungle of the convention the Britt people provided 150 pounds of potatoes, 50 pounds of cabbage, 40 pounds of meat, and a barrel of coffee.

The news item concludes:

"The new monarch intends to hop a freight for Illinois to 'look over his kingdom.'"

Thus a practical joke lives on.

C., where Mr. Wallentine is employed installing electric elevators in the large new building which is being erected there. They went sight-seeing in the Capitol City, seeing the city from the Washington monument and by taxi because Washington is a good place in which to get lost. They visited the White House, Capitol building, library of congress, Lincoln's tomb, and many other places of interest.

They spent a half day at Mt. Vernon, Va., stopped at the wharf in Baltimore, Md., and were thrilled to see the way shipments of fruits arrive from Cuba. The visit to Gettysburg, Pa., was very worthwhile. The exposition at Cleveland was enjoyed on their way home.

1. She should feel slapped. That is the kind of woman who goes in for the "intellectual," the finer things of life—maybe gets a Ph. He points out that a criminal can murder people in every state, yet if he is caught robbing a bank or hen roost he gets only ten years. He thinks he should be tried for all his misdeeds and

Answer to Question No. 3

3. It is probably a mere coincidence. Even a million such instances would not prove such an astounding fact of nature as mental telepathy. Millions of people are thinking much of the time of other people and it would be equally astounding if they did not often think of each other at the same time. It

arouses only a suspicion that it might be telepathy. That is all. It proves nothing. Controlled experiments such as those being carried on by J. B. Rhine of Duke University are the only way to prove or disprove telepathy.

FOOTBALL AT D. H. S. BEGINS; 41 REPORTING

Practice At 9 A. M.
Daily Until Next
Tuesday P. M.

The dull thud of the pigskin connecting with spiked grid shoes resounded in the vicinity of Dixon high school Thursday afternoon heralding the opening of the 1937 football season for Coach C. B. Lindell's Purple and White warriors, with 41 candidates reporting.

Suits were handed out to the candidates and lockers assigned for the year. Serious practice got under way at 9 a. m. today on the Borden Milk Co. field on Page Drive along Rock river and will continue at 9 a. m. each day until the opening of school, when the practices will be held at 3:30 p. m. Drills will be held at Borden field four times a week and at Reynolds field one day each week. All of the home games this fall will be played at Reynolds field.

Await Cooler Weather

Calisthenics and fundamentals were the order of the day this morning for the gridgers. Scrimmage and signal practice will probably be deferred until cooler weather unless the heat continues longer than expected. The first game will be played with Rock Falls, here, Saturday afternoon, Sept. 18.

As in 1936, Coach C. B. Lindell's line problem is acute. Only John Naylor, guard and tackle, and Bill Oakford, sturdy Purple and White center, are veterans in the line. For his backfield the Dixon mentor will have available for services veterans Gerald Ankeny, pile-driving fullback, and Joy "Red" Ellis, fleet halfback. Don Nicklaus, a 1936 letterman, will be available as reserve center for Oakford. The 1937 edition, however, will sorely miss the services of Don "Goon" Miller who provided many a touchdown punch for Dixon from a half back post. Bob Coakley and Phil Watts, halves, and in the line "Tuffy" Miller and "Mickey" McMillan at ends with Johnny Swain substituting, and Jim Naylor and Gerald Cruthoff, tackles. Bill Christos is also lost to the team at guard. The burly 250 pound guard has spent several months in Greece and will be ineligible for play upon his return to the United States. Victor Potts will also be unavailable to the team this year at guard.

Many Lightweight Vets

To reinforce his riddled line, Lindell has a promising supply of lightweight lettermen who will be called upon to fill up the gaps in the heavyweight team. Among these are Frank Daschbach, quarterback; Arthur Eastman, guard; Howard Edwards, tackle; James Gemignani, guard; John Jensen, fullback; Jack McGrath, halfback; John Moore, guard and tackle; Alfred Nichols, end; Earl Page, halfback; Bruce Palmer, end; Tom Richards, tackle; Ed Rinehart, center; Arnold Salzman, end; Bill Slothower, tackle; and Louis Bevilacqua, halfback.

Several of these boys have grown taller and heavier during the summer and will be ready for heavy-weight competition. Those unable to make the grade will continue in the lightweight ranks and be used from time to time as reserve material.

Dixon high's newly organized eleven will be charged with the duty of defending not only the North Central Illinois conference championship, but a spotless record of nine consecutive games won by the 1936 team against Big Seven, N. C. I. and Rock River Valley conference competition. The most serious test of the locals in this respect will be the third contest in as many years with the powerful Rockford high Rabs, Friday night, Sept. 24 in Fifteenth Ave. stadium at Rockford. Rockford is reputedly the strongest it has been in 10 years and is out to average a 12 to 7 defeat at Dixon's hands. In the past two years each school has won a game and this year will decide the intercity honors.

STUDENT VIEWPOINT

By "Dash, Jr."

Football practice started today at D. H. S. under fairly good conditions. A good number of candidates reported to try to make the team although there were a few who were sent invitations who did not make their appearance but are expected to report inside of a few days. Among those who were absent were "Red" Ellis who was a varsity half-back last year and who is making his final appearance for D. H. S. this year, due to the fact that he will be a senior in the coming school year. Also Howard "Doc" Edwards failed to "show." "Doc" played as a heavy-weight sub last year and is expected to make a very good showing at a varsity tackle position this year.

Due to the flood which occurred in Dixon last February, no games will be played on the athletic field

Trouble Ahead

By Fred Harman

AT THAT MOMENT AN EXCITED GROUP OF RED DEATH SOLDIERS AND GUARDS BREAK SUDDENLY INTO THE MASKS PRIVATE QUARTERS, SHOUTING NEWS OF FINDING THE COUNCILMAN THAT BRONC BOUND AND GAGGED.

this year because in spite of the efforts of Athletic Director A. C. Bowers and the athletic board to repair the field for use this year, it is in no condition to be played upon. Therefore all home games will be played at Reynolds field. The squad will do most of their practicing in a field behind the milk factory. According to Coach Lindell, however, one night will be spent in practicing at Reynolds field so that the squad will become accustomed to the playing field.

Suits were issued today to first the varsity lettermen of last year, then the minor lettermen, and then to whoever got in line first. After all the reporting candidates had received the necessary equipment the squad was led out to the practice field where they were sent through about ten minutes of calisthenics. After this exercise was completed the squad was given some practice in passing. By this time, however, the afternoon was wearing away and everybody was sent to the showers with instructions to report the following morning at 8:45 A. M.

Told of All-Stars

Also during the afternoon Coach Lindell called the squad to rest and told of his visits to the All-Stars practice sessions. He had been in Chicago for about two and one-half weeks and during his stay had seen the All-Stars practice every day. He had the opportunity of speaking to a number of them, including Captain Sammy Baugh, and he set them forth as a very good example of determination. He said that they like us, had only a little better than two weeks in which to practice and yet they "got in there and fought" and as a result were victorious. Although we have only a short time in which to practice also, Coach Lindell assured us that we could duplicate the feat of the All-Stars if we "got in there and fought" because we had the material with which to do it. And you can bet your life that the squad is really going to fight to retain the championship which it has held for the last two years, beside the other times they have been champs of the N. C. I. C. in the past eight or nine years. Also Lindell had quite a lengthy chat with Sam Baugh and Sam had had shown Lindell how he passed. Lindell demonstrated this to the squad and it is really the same as anyone else would throw a pass. There is no attempted deception when he receives the ball from center. He merely takes the ball, fads back to allow the receivers to get out the necessary distance, and heaves it. However, he is much more accurate than most passers and it is this that makes him so outstanding.

Dixon plays a schedule of nine games this year and it meets Rock Falls in the initial contest of the year at Reynolds field on Saturday, September 18.

Mrs. Wingard Wins Prize Money For Marathon Swim

Toronto, Sept. 3.—(AP)—Mrs. Lenore Kight Wingard is the second American to walk off with the prize money for a marathon swim held at the Canadian national exhibition.

Mrs. Wingard followed the example of Frank Pritchard of Buffalo when she took the women's professional three-mile swim yesterday and first money of \$750.

May Looney, Warren, O., was second. Mrs. Wingard took the lead at the first half-mile and covered the distance in 1:21:24 to lead Miss Looney by 150 yards at the finish.

PLAYGROUNDS CLOSE SUMMER PROGRAM TODAY

Miss Hiland, Director, Pronounces Project Great Success

Gum and mints were furnished this week to the playgrounds each day by L. J. Glessner of the Beechnut Gum Co. Mr. Glessner has furnished gum to the children most of the summer and they appreciate his kindness greatly.

The playgrounds, a supervised recreation program sponsored by the Dixon park commission, closed today with a large number of children participating in the activity on the playgrounds for the summer. Much credit is due the park commission for providing supervised play for the children of Dixon during their leisure hours.

Those connected with the activity hope that each child and their parents are satisfied with the values and results they have received from the project. The staff hopes that each child who has participated in the activity has gained mental, competitive and spiritual refreshment and growth as well as physical exercise and development and enjoyment.

The staff takes this opportunity to thank the following for their kindness and generosity in helping make the summer worthwhile to the children: Dixon school board for the use of the schools throughout the summer, Dixon Evening Telegraph for allowing generous use of its columns for publicity, Beechnut Gum Co. for gum and mints, Prince Castles for ice cream, Wrigley Gum Co. for gum, Hey Bros. for ice cream bars, George Netz for use of his truck in transporting children to Lowell park, Borden Milk Co. for caramels, Banta's Ice Cream Co. for ice cream, Hal Roberts for his kindness in taking the children to Lowell park each Friday. The children are grateful to Mr. Roberts for they realize he made the trips possible and without his generosity they wouldn't have been able to go; each child looked forward to the Friday outing.

The playgrounds were brought to a close today with a picnic at Lowell park. Children gathered at 9:30 A. M. at E. C. Smith and North Central school.

Mize Recovering From Head Injury By Pitched Ball

New York, Sept. 3.—(AP)—John Mize, big St. Louis Cardinal first baseman who was "beamed" by one of Pitcher Harry Gumbert's fast balls in yesterday's game against the Giants felt so good today that he was packing up to leave the hospital for St. Louis.

X-rays disclosed no serious injury though three stitches were necessary to close the wound on the right side of his head.

From Polyclinic hospital, Mize himself answered the telephone inquiry.

"I'm Okay," he said, "am packing up to go St. Louis this afternoon. I won't be out of the game for more than two or three days."

POLLAND STILL AHEAD

Chicago, Sept. 3.—(AP)—David S. Polland of New York held a clear-cut lead over the rest of the field as play in the American chess federation's masters final continued today.

Champaign, Ill., Sept. 3.—Bob Zuppke, preparing to begin his 25th year as coach of the University of Illinois football team, will greet approximately 56 candidates when practice opens Sept. 10.

The squad may be depleted by the loss of a few candidates whose scholastic status is in doubt and it is possible that some others may be added. With the opening of university registration Sept. 20, a number of other players will report. TERRY'S TEAM GETTING ITS USUAL BREAK

Dodgers Helping Old Rivals By Beating Cubs

By SID FEDER

Associated Press Sports Writer

Social note: Lady Luck is that way about Bill Terry again.

The romance that waxed warm just about this time last season, and then cooled off for much of the early part of the current campaign, is blooming again.

Everything is breaking right for the Colonel from Memphis and his New York Giants. His pitchers have started to click again, his attack is timely if not murderous, and his nearest rivals for the National league pennant are falling apart with all the consistency of a layer cake hit with a sledge hammer.

And now, as though that weren't enough, the weakest weapon in his offense, young Johnny McCarthy, is beginning to find the range, and his perennial feudists, the Flatbush Frolics from Brooklyn, are doing their level best to kick the Giants upstairs.

What with this and that, the Terry Terriers were a full game in front of the National league pennant parade today. Their 5-4 win over the Cardinals yesterday, coupled with the Dodgers' 4-3 decision over the second place Cubs, lefts the championship chase in this form:

	W.	L.	Pct.	Play
Giants	73	47	.608	34
Cubs	73	49	.598	32

McCarthy Surprises Experts

Only a few days ago, the experts were referring to McCarthy as the "minor league" member of the Giants' cast. He was given a chance at first base earlier in the year, was benched in favor of the ailing but heavier-hitting Sambo Leslie, but had to be recalled several days ago when Leslie returned to the hospital list.

He was the No. 1 walloper yesterday in the '0-inning win over the Cards. He whacked two homers to make up for a fielding collapse on the part of the New Yorkers and kept the Giants in the game long enough for Mel Ott's 30th round-tripper and a trio of assorted blows in the extra frame to pull the Giants in.

At the same time, the Daffy Dodgers, who, unlike elephants, seem to have forgotten all about Terry's classic crack—"Are the Dodgers still in this league?"—that started their row with the Giants in '34, aided and abetted the New York cause. Of course, the Cubs continued beating themselves as they went down for the second straight day before the Dodgers, but their 11-inning wallowing at the hands of the Brooklyn made it all the more conclusive that "things ain't what they used to be" on the banks of the Gowanus.

Feller Stops Riot Squad

Meantime, the Yankees and their slump ran into young Bob Feller and the alleged Murderer's Row took a terrific kicking around. Young Bob, looking a lot like a pitcher, fanned a dozen and allowed five hits as he hurled the Tribe to a 4-2 win despite Joe DiMaggio's 39th homer.

Hank Greenberg poked two homers and the Tigers topped the Senators, 9-6, in 10 innings to cut the Yankees' lead to 10 games. The White Sox socked the Red Sox twice, 4-2 and 10-8, and the Athletics trimmed the Browns, 5-3, on Bill Werber's double with the bases loaded. The Pirates' five-run rally in the ninth beat the Phillies, 11-8. The Bees and Reds were idle.

Shotguns Of 248 Skeet Entrants Booming Today

Detroit, Sept. 3.—(AP)—Shotguns boomed steadily today as a record field of 248 entrants fired away at the second 100 targets of the all-gauge event, final contest of the third national skeet championships at the Blue Rock Gun club.

Reflecting the increased proficiency of its followers at the comparatively new sport of skeet were three perfect scores of 100 shot in the opening 100 targets of the 250 target event Thursday.

The marksman who shared the top niche as today's firing started were Frank R. Kelly, of West Orange, N. J., Odie Walding of Los Angeles, and Don Sears, of South Lyon, Mich.

The flag of the President of the United States consists of his seal in bronze, upon a blue background, with a large white star in each corner. The design may be seen in the floor of the entrance corridor of the the White House.

INVESTIGATE CRASH
Salt Lake City, Sept. 3.—(AP)—Army officials from Ft. Douglas, Utah, were expected today to investigate the plunge of an Army

Great Salt Lake Tuesday. Pvt. Henry Pearson, 38, was drowned but Lieut. Lucian Powell swam two miles to shore. Pearson's body was recovered yesterday.

California has had one-twelfth of its total area burned off by forest fires, during the past 12 years.

The weis, a giant European catfish, grows to a length of 13 feet.

J. L. LEWIS WILL TALK ON RADIO FOR CIO TONITE

Washington, Sept. 3.—(AP)—John L. Lewis indicated today he would bid for a political alliance of farmers and labor in a broadcast address tonight.

The bushy-browed chief of the Committee for Industrial Organization said farmers were the "natural allies" of labor and added: "Some of the means whereby labor expects to consolidate and further this natural alliance will be discussed in my speech."

Lewis' address will be broadcast by a radio network (CBS) from 8:30 to 9 P. M. C. S. T.

His intimation of its character recalled his statement, at the end of Congress, criticizing the Democratic leadership. It was interpreted by many Congressmen as a threat of a third party in 1940.

Senator Lundeen (FL-Minn) predicted a national labor party in the next presidential election.

Lewis said he also would talk about the bloody steel strike of the early summer and mention some of "the public officials who betrayed their trust and used the forces of government against labor."

His speech will be the first of a series of week-end oratorical efforts by labor leaders which may set forth further policy in the struggle for supremacy between the C. I. O. and the American Federation of Labor.

William Green, A. F. of L., president, will speak at Dallas, Tex., Monday.

Other labor leaders who have arranged holiday speeches include John Frey, A. F. of L. Metal Trades chief, and John Brophy, CIO director.

DIXON BOYS PAY HOMAGE TO LINCOLN

Members of the drum and bugle corps of the Sons of the American Legion, Dixon Post, No. 12, paid their respects to the memory of Abraham Lincoln during the Legion's State Convention at Springfield Monday. Two Negro members of the corps, Niemander Pierre and his younger brother, Sostand, with "Commander" Charles "Daddy" Shick, former Dixon resident and oldest Illinois Legionnaire, placed a wreath on the Great Emancipator's tomb. In the background of the picture is Herbert Wells Fay, custodian of the tomb. The wreath was made of cedar taken from the site of the Lincoln memorial here.

State Hospital

Plans for the continued control of the situation in regard to those suffering from bacillary dysentery were presented by Dr. W. G. Murray, managing officer to three well attended meetings of employees of all ranks held yesterday at the amusement hall. The meetings were addressed by Dr. Bloch, a specialist on the staff of the department of public health.

"The situation as regards to this institution is not grave," said Dr. Bloch, "but it is vitally necessary that all employees exercise continued watchfulness and promptly report any cases that may be suffering from the disease so that they may be isolated and treated. It is vitally essential that steps be taken to prevent all persons who may have had the disease or any potential carriers from coming in contact with the food of others in any way. The continuance of this policy is vitally necessary to prevent the potential development of a situation, more serious than I like to think of."

The Rev. Edward Mann, accompanied by his mother, visited his brother Paul who is a patient here, yesterday.

Yesterday brought the resignation of Miss Kramer, supervisor in the recreation department. We were unable to reach Miss Kramer for a statement but from a source believed to be authentic we learn that she has accepted a very fine position as supervisor of music in the rural schools at a handsome increase in pay. During the time Miss Kramer has endeavored herself to all with whom she has come in contact by her winning personality and her intense devotion to duty. She carries with her our best wishes for success in her new field of endeavor.

His most serene beatitude Richard "Cardinal" Hoban, grand chancellor and arch protector of the ancient and independent order of pie-nists has taken unto himself a new job. In an exclusive interview released last evening, Mr. Hoban said, "I am pleased to announce the professional organization of the grand lodge of the society of the bachelor brotherhood. I hope this organization may find some way of combating the sudden epidemic of marriages that have removed so many of our most promising young men from the peaceful existence of the bachelor to the trials and tribulations of the married state. Provisional officers are as follows: Provisional president, Henry Hambrick; provisional vice-presidents, Gerald "Judge" Waite and Albert Linker; provisional secretary, Tony Guzzardo; provisional treasurer, Joseph Peluco; provisional board of directors, Richard Hoban, chairman, John Elderidge, John Sutton, Lawrence "Jerry" Gorman and piffers, ex-officio.

Vice-president Gerald "Judge"

Waite, in charge of the organization of the society of the bachelor brotherhood, announced last evening that Alva Kridler would deliver a lecture at the first meeting of the society on the subject, "Bachelorhood Among the Indians of Early Peru."

DAILY HEALTH

By DR. IAGO GALDSTON

Bad Times and Health

The interesting thesis that bad times favor good health, while economic prosperity engenders ill health has been advanced recently by Dr. Emil Bogen, of Olive View, Calif. At first blush this thesis appears to challenge common sense. On the other hand there is a mass of facts which tends to support it.

It was noted, for example, that during the first year or two of the last great war the health of the people of practically all the warring nations was generally improved. Again, at the onset of the recent economic depression in this country many social and public health workers feared that we would experience a serious rise in illness and a corresponding rise in our mortality rates. On the contrary, the health of the people remained good and there was a continuous though gradual decline in our crude mortality rate.

How then can we account for this paradoxical association of bad economic conditions with good health and vice versa? Dr. Bogen offers a few ideas, such, for example, that during economic prosperity we use more alcohol and indulge in more dissipation. The increase in traffic in personal contacts, with greater chances of infection, the nervous strain of boom times, the greater physical and mental exertions, he suggests, may perhaps account for the rise in illness and mortality.

Dr. Bogen, however, advances as his major argument the belief that people eat more in times of depression and therefore are healthier, while they eat less in times of commercial prosperity and therefore die of tuberculosis and other diseases influenced by undernutrition.

In substantiation of this argument, he points out that diabetes, traditionally associated with overeating, decreases in periods of prosperity and increases in times of business depression. Again, he draws from the World Almanac the evidence that folks eat more meat during periods of depression than during prosperous years. He ascribes this not to a sudden change in people's tastes but rather to the fact that in times of so-called prosperity the purchasing power of the workers' money is reduced and that therefore the average person is compelled to subsist on foods that have a lower nutritional value.

Trade Review

New York, Sept. 3.—(AP)—The extended week-end holiday and purchases by students preparing for school and college reopening benefited retail trade this week, Dun & Bradstreet reported in the review of business.

Retail sales for the country as a whole were estimated at from 1 to 4 per cent ahead of the preceding week and from 7 to 18 per cent better than in the comparable 1936 period.

Elsewhere the trend of business and industry was spotty. Wholesale markets were helped by urgent re-order demand for seasonal merchandise but many buyers postponed scheduled trips to centers until after Labor Day, the agency said.

On the industrial front, production was lowered by mid-week shutdowns at many plants and further curtailment of operations in some consumers' goods divisions.

While standard merchandise held its own in retail sales, the agency said it was the good showing made by summer goods that proved the outstanding feature.

Percentage gains over a year ago included: middle west 10 to 18 with some cities reporting up to 30.

Special Meeting Of Power Implement Co. Called For October 4

New York, Sept. 3.—(AP)—A special meeting of stockholders of the Minneapolis-Moline Power Implement company has been called for October 4 to vote on a recapitalization plan, which provides for the discharge of accumulated dividends of \$3,800,000 on the company's \$650 preferred stock.

W. C. MacEairlane, President, in a letter to stockholders, said the plan was designed to conserve for development of business the cash resulting from rising earnings. It gives to the preferred stockholders the opportunity, if all privileges are exercised, of obtaining for their holdings the ownership of more than 51 per cent of the common stock equity.

The plan provides for payment of a cash dividend of \$4 a share on the preferred, reducing the accumulated dividends as of Sept. 30, 1937, to \$344.4 a share. Each share of present preferred would then be exchangeable for 1 share of \$5.50 prior preferred, which would be entitled to two extraordinary dividends aggregating 2 1/2 shares of common stock, payable 1 share in 1937 and 1 1/2 shares in 1938, and would be convertible into 5 common shares on or before Oct. 15, 1942.

Dividends on the prior preferred would be cumulative from September 30. The company will apply for listing of the New York Stock Exchange. The holdings of common stockholders would remain unchanged under the plan.

Collects Blood For Treatment of Burns

Chicago, Sept. 3.—(AP)—Dr. S. R. Rosenthal began a collection of blood today from persons with healed burns for advanced experiments to develop a serum for treatment of burn victims.

He said he expected to use the serum clinically on a human patient—for the first time this month, experiments having been conducted so far on guinea pigs and dogs.

Dr. Rosenthal, Associate in the Department of Bacteriology of the University of Illinois School of Medicine, said experiments indicated his serum had antitoxic

STATES AIDING WILDLIFE GET FEDERAL FUND

\$2,760,000 Allotted To Cooperating Governments

Washington, Sept. 3.—(AP)—The wildlife restoration act, signed by President Roosevelt, authorizes an annual distribution of some \$2,760,000 to the states that agree to cooperate.

Each state is required to adopt assenting legislation, but any governor, until after adjournment of the next regular legislative session, may give his state's assent by executive order.

The measure does not levy new taxes, but provides for distribution of existing taxes on sportsmen's equipment to the various states on the basis of area and number of hunting licenses sold. States and the federal government, through the secretary of agriculture, are to cooperate in using the money for wildlife conservation projects.

No state may receive more than \$50,000 a year under the act, and a minimum of \$15,000 is provided for any state that will set aside \$5,000 for the work. The states are to set aside, with these maximum and minimum exceptions, one-third as much in state funds as they receive from the federal government.

Estimated federal contributions to the various states, before applying the maximum and minimum rules figured on the basis of \$3,000,000 taxes with an 8 per cent deduction for administration, included: Illinois, \$88,029.

The year 1739 saw the first game wardens in the United States.

properties, for neutralizing toxicity or poisonous condition produced by burns.

He said he prepared the serum by taking blood from persons who had been burned weeks or months after the burns had healed. The blood was permitted to clot, then the clot removed, leaving the translucent serum with a reddish-brown tinge, he said.

WONDERFUL

All summer long, if you happen
 to be in the vicinity of Lower Bay,
 N. Y., you can see a fine large craft
 bearing the name "The Floating
 Hospital". This sturdy sea-going
 vessel cost close to \$200,000. It is
 used exclusively for the pleasure of
 New York City. Over ninety thousand
 each year are given a day's outing
 on this boat. Can you imagine the
 joy and pleasure it gives a poor
 overworked, underfed mother with
 a band of little children who are
 also undernourished, fretful and ir-
 ritable from the heat of the days
 spent in a tenement house in the
 slums to fill their lungs with the
 refreshing ocean breeze—to be cool
 and comfortable for a few hours, to
 have some good food, enjoy a pic-
 ture show, play deck games and
 have a shower—all under com-
 petent nurses?

Every morning at nine the boat
 leaves the municipal pier at New
 York City. A woman doctor in-
 spects the procession as it comes on
 board to guard against contagion.
 Then the mothers and children go
 to the beautifully equipped clinic
 to be inspected.

Mothers are given an opportunity
 to learn something about the proper
 care and feeding of their children,
 and while the smaller children are
 receiving watchful care the mothers
 are having perhaps their one holi-
 day of the season.

This marvelous work has been
 carried on for the past 61 years by
 St. John's Guild of New York City.

Musical Ex-convict
Dies In Obscurity

Springfield, Ill., Sept. 3.—(AP)—
 Harry Snodgrass, whose playing of
 "It's Three O'clock in the Morn-
 ing" brought him radio fame as a
 penitentiary inmate, died Thursday
 in the obscurity of freedom.

In the Jefferson City, Mo., peni-
 tentiary more than a decade ago
 Snodgrass was a soloist on radio
 hookups, a national favorite best
 known for his piano rendition of
 his theme number.

Given his freedom and a va-
 deville contract in 1925, Snodgrass
 was a failure. A personal appear-
 ance tour quickly ended in can-
 cellation.

Snodgrass came back to Spring-
 field, his boyhood home, to play
 the piano in prohibition "joints."
 After repeal, he spent several years
 in a Peoria night club.

Dropping more and more out of
 sight, Snodgrass became ill Mon-
 day. A son took him to the Pal-
 myra home of his former wife,
 where he died at 3 A. M.

 he was involved in anti-Soviet

Describes Chinese
As Peaceful People

Chicago, Sept. 3.—(AP)—A Fran-
 ciscan missionary who has spent
 the last 11 years in China described
 the Chinese today as a "peace-lov-
 ing people who disliked war and
 seek only to be master of their own
 country."

The Most Reverend Monsignor
 Ambrose H. Finger arrived here by
 train from the west coast to avail
 elevation to a Chinese bishopric.

He was accompanied by the Rev-
 erend Justice Schneider, another
 Franciscan and a native of Jersey-
 ville, Ill., who like the monsignor

Martha Raye And
Hubby Reunited

Hollywood, Sept. 3.—(AP)—Mar-
 tha Raye, big-mouthed screen com-
 edienne, grinned from ear to ear
 today as she announced she and
 her husband of three months, Ham-
 iltion (Buddy) Westmore, are "back
 together again."

"There'll be no annulment," she
 said.

The couple eloped to Las Vegas,
 Nev., May 30 after a typical whirl-
 wind Hollywood courtship. West-
 more, studio makeup expert, accom-
 panied Miss Raye part of the way
 on a recent personal appearance
 tour, but returned ahead of her.

 stems and roots of poison ivy are

 which cost five lives injured more
 than 30 persons Monday.

All except 12 of those injured had
 left the Elkhart and Goshen hospi-

Mount Morris

By Pauline Yoe

Mt. Morris—If any of the housewives of Mt. Morris have been bothered by transients lately, it is because the issuance of meal tickets for them have been discontinued temporarily. Since the employment situation became so improved this summer, many of the surrounding towns have stopped transient relief, with the result that the "professionally" unemployed, that is, mainly tramps, have switched their itineraries to include Mt. Morris. A number of these, during the last few days, upon being refused tickets, were observed by Officer Palmer to enter local groceries and present bills in payment of purchased groceries.

As for actual local relief, however, the Mt. Morris Community Chest Board has been busy throughout the year. Besides 370 transients who were fed since last November, clothes and books were bought for three local children, glasses were fitted for three, groceries were bought for five destitute families during the winter. A much needed surgical operation was arranged for a resident, and two tonsil operations for local children, which otherwise could not have been taken care of, were paid for out of chest funds. One local child, who was a patient at the state tuberculosis sanitarium, had her expenses partially defrayed from the funds of the local chest board. Many other services, including the placement for work of several men, were performed by the Rev. C. H. Hightower and his Child Welfare committee.

Many may have forgotten the serious floods of last spring, but besides the generous donations by local residents directly, chest funds also were doing duty in the stricken zones, through the American Red Cross. Reports coming in from other agencies which participate in the Chest Fund, indicates much worthy activity on their part. The Scouts and Cubs are beginning an enlarged activity program for the coming year, the Salvation Army and the Illinois Children's Home and Aid Society have been active, as has the State Association of Y. M. C. A. Locally, the Library has been rendering excellent service, and much good has been done for the children through the Community gymnasium, all these organizations receiving budgeted sums from the Chest Fund.

It is not the policy of the board to mention names of those who have been helped, although a record is kept, but those directly in touch with the work have a definite knowledge of the worthy results which are being obtained through the wise use of the money raised through the annual drive.

All discomforts caused by the present heat wave will be dispelled readily if you will but glance over the refreshing program which has been arranged for the coming winter for the Current Events club.

The program as completed by a committee consisting of Mrs. William Prugh, chairman, Mrs. C. J. Price, Mrs. Warren Burchby and Mrs. F. H. Steffen, will include a number of travelogues, reviews of recent books, current events and musical programs.

Officers for the 1937-38 year are: Mrs. Ira Hendrickson, president; Mrs. R. N. Hoover, vice president; and Mrs. Pearl Kable, secretary-treasurer.

Edward Platte and Mrs. Walper attended the couple. The bride wore a white suit and a corsage of lilies of the valley and roses.

The young couple who are making their home with the groom's parents, were honored with a miscellaneous shower on Tuesday evening. Fifty friends of the couple, members of the Helping Hand club, gathered at the farm home south of town for a party to wish the bride and groom much future happiness.

The sound of wedding bells scarcely had died out for Mrs. John Yeake (Ethel Allen) when the beginning of a new adventure for her as they do also for Mrs. Cecu Armbruster.

Both of these ladies are leaving shortly, the former for Glenwood where her husband is to teach, and Mrs. Armbruster for Champaign where her husband is resuming his studies as a junior in the college of engineering.

The best laid plans of mice and men oft go awry, said Bobby Burns, and it was true in the case of Betty Baker whose birthday plans last May were interrupted by chicken pox. So a Mickey Mouse party yesterday afternoon more than made up for it with Betty and her little friends who were Dolores Crocker, Arlene Chambers, Marilyn Davis, Marjorie Garrison, Betty Huffman, Betty and Charlette Zastrow, Betty Manus, Margaret Branker, Lois Myers and Barbara Simpson (Berwyn).

Since the first meeting of the Parent-Teacher association comes so closely after the opening of school, Mrs. Dale Lizer, president of the organization, and her committee already have been at work planning for the season's activities and promise some interesting programs for the year.

Flower Show
At 1 p. m. Friday, Sept. 10, the doors of the first annual Mt. Morris flower show will open, continuing through Saturday. The opening hour Saturday will be 10 a. m., exhibits to remain until 9:30 that evening. The Mt. Morris Woman's club is sponsoring the show, which is to be held at the Lutheran church. An admission charge of 10 cents will be made.

Like all civic enterprises, co-operation of the community will be the greatest single factor in making the show a success. Although the season has been hot and dry, a good display is possible. Taken from the garden and tastefully arranged, flowers will show to much greater advantage. The weatherman has played no favorites, the dearth of moisture having affected all equally.

It is well to keep in mind that the show is open to all; the exhibitors are not limited to members of the Woman's club but to everyone in the community. Flowers need not be of conservatory championship calibre—the reason for the show is to acquaint local residents with what is being grown in this locality and to encourage the raising of flowers.

Ribbons will be awarded to the winners in all classes except the surprise exhibit, in which winners will receive a cash prize. Miss Loulou Thomas, Polo, and Mrs. Glen Andrews, Byron, will officiate in judging.

Those setting tables are requested to call Mrs. Paul Yoe by Tuesday, if possible, so the space may be provided. Flower exhibitors also should notify Mrs. Gerald Hough or Mrs. Paul Kent, giving the number of entries they will have. While this is not required in order to exhibit, it will help the committee in charge to arrange adequate space.

Following is a list of classifications:

1. There will be no charge to enter competition.
2. Any person in Mt. Morris or surrounding community is invited to enter exhibits in any class.
3. Commercial growers are invited to exhibit flowers but are not eligible for prizes.
4. Exhibits must be in the hands of the flower show committee at the Lutheran church not later than 10:30 a. m., Sept. 10.
5. Any number of exhibits may be entered by one person.
6. All exhibitors must furnish their own receptacles and accept responsibility for same.
7. Exhibitors are requested to leave their exhibits until 9 p. m., Sept. 11.
8. Green may be used in all flower arrangements.

GOOD THOUGHTS

All thy virtue dictates, dare to do.

No power on earth or under the earth, can make a man do wrong without his own consent.

You will never get me to support a measure which I believe to be wrong.

Although by doing so I may accomplish that which I believe to be right.

My only desire is to know the truth; my only fear to cling to error.

The moral courage of Jesus was the result of his spiritual understanding, his knowledge of real being. If we would possess a measure of his moral courage, we must gain a measure of the spiritual understanding he had.

Trust in the Lord with all thine heart; and lean not unto thine own understanding.

In all thy ways acknowledge Him, and He shall direct thy paths.

—Proverbs 3:5-6.

DIXON METHODIST CHURCH
Howard P. Buxton, Minister
"The Yoke That Makes Burdens Easier" will be the sermon theme of Howard P. Buxton, minister of the Dixon Methodist Episcopal church. The hour is 10:30 a. m. Man often takes the position that true freedom comes when man throws off responsibility. To find rest we must run away from our tasks. Jesus presents a different view point. To Him true freedom comes by accepting responsibility; by bearing a yoke. "Come unto me all ye that labor and are heavy laden and I will give you rest. Take my yoke upon you and learn of me; for I am meek and lowly in heart; and ye shall find rest unto your souls. For my yoke is easy and my burden light." Next Sunday is regarded as Labor Day Sunday and the service may be regarded as a tribute to all who toil. The public is cordially invited. Miss Naomi Wolf will be the pianist for the service.
